

How to strengthen our collaboration on security

Essential tips to make us better partners

Airbus Security Requirements Annex for suppliers

[1]

I build a **trusting working environment**

SECURITY POLICIES

- I ensure **management buy-in** and **user awareness**, by creating a set of **Security Policies**.

ORGANISATION OF SECURITY

- I have nominated a **security focal point** to Airbus for exchanges on **security topics** including **vulnerability** and **security incidents**.

ASSET MANAGEMENT

- I maintain an **inventory of authorised equipment and software** on my network.
- I encrypt **data stored** on mobile devices.

COMPLIANCE

- I avoid **breaches of any criminal or civil law, statutory, regulatory or contractual obligations and of any security requirements** (e.g. GDPR, National Restricted, Export Control, ...).
- I ensure **compliance of systems** with **organisational security policies and standards**.

[2]

I make sure **my site and data are secured**

PHYSICAL AND ENVIRONMENTAL SECURITY

- I prevent unauthorized access, damage and interference to **business premises and information**.
- I prevent **compromise or theft of information and physical assets**.
- I have a **firewall safety system** dimensioned to address business risks.

ACCESS CONTROL

- I ensure that **all users of the network** and computing devices have **unique individual user ID's** and are using a **strong password**.
- I use **strong authentication** to connect to Airbus or from outside my network.

CRYPTOGRAPHY

- I ensure **proper and effective use of cryptography** to protect the confidentiality, authenticity and/or integrity of information.

COMMUNICATIONS SECURITY

- I ensure and monitor the protection of **my network perimeter** (firewall, proxies, intrusion detection, ...).

[3] I protect my **chain of production**

OPERATIONS SECURITY

- I ensure that patterns/signatures of **anti-intrusion and/or anti-virus mechanisms are updated regularly on all devices**, including mobile ones and are **properly implemented**.
- I ensure that formal change control procedures are established within my **IT organisation**.
- I ensure that our **key IT systems** are covered by a manufacturer's warranty, or competent support with-in the organisation, thus ensuring **availability systems and information**.
- I assess **my systems and their components** (security patches, OS new version or application).

SYSTEM ACQUISITION, DEVELOPMENT AND MAINTENANCE*

- I ensure that security is **built into application systems & software** that I develop.
- I prevent loss, **modification or misuse of user data** in application systems.
- I ensure **IT projects and support activities** are securely managed.

INFORMATION SECURITY INCIDENT MANAGEMENT

- I identify and react on **system vulnerabilities** and **security incidents** in a timely fashion and to prevent re-occurrence.
- I have the necessary **tools & people for security incident prevention**, quick and efficient detection and response.
- I guarantee an **ongoing collaboration** with Airbus in case of a security incident and threat intelligence.

INFORMATION SECURITY ASPECTS OF BUSINESS CONTINUITY MANAGEMENT**

- I implement **Business Continuity** procedures and processes.
- I ensure adequate **Disaster Recovery planning and procedures** to safeguard system and information confidentiality, integrity and availability.

*For suppliers who have access to the Airbus system or provide IT products or services
 **Applicable for suppliers using specific IT infrastructures or working on specific products and services

[4] I communicate effectively with all stakeholders concerned

SUPPLIER RELATIONSHIPS

- I **cascade the Airbus security requirements** (Airbus Security Requirements Annex) to my own suppliers and I audit them for security compliance.
- I inform of the **location of my suppliers/subcontractors** and obtain an Airbus' prior written authorisation to **grant access to data or systems**.
- I notify any **major changes to information related services provided** and to organisation **security policies and procedures**.

HUMAN RESOURCES SECURITY

- I ensure that **users are aware of information security threats and concerns**, and are **equipped** to support the corporate security policy in the course of their normal work, and to **minimise the damage from security incidents and malfunctions and learn from such incidents**.
- I ensure the **identity** and the **integrity** of the people I am recruiting.
- I **reduce risks** of human error, theft, fraud or misuse of facilities.
- I ensure that my contracts with my employees and suppliers/w-subcontractors **comply with the confidentiality commitments** contained in the Airbus Security requirements annex.

Note: The requirements described are applicable to all suppliers; additional elements might be added, according to your working environment and associated risks.
